Mindfulness-Based Stress Reduction

Week 1 - Simple Awareness Introduction to the Body Scan

Now that you've experienced the **Introduction** and completed the **Getting Started Worksheet** (see **Getting Started**), you are ready to begin. **Welcome!**

NOTE: The links to all the materials described below are given in the colored section at the bottom of the page. Although there are five videos to watch this week, once you start one, the others will automatically follow. Some of the videos have ads at the beginning. Revenue from these ads go to the original creators of the videos, not to Palouse Mindfulness.

Videos

The videos for this week begin with **The Power of Mindfulness**, in which Shauna Shapiro emphasizes the importance, not of just paying attention to our inner experience, but *paying attention with kindness*. In **Don't Try to be Mindful**, Daron Larson addresses a common misunderstanding about mindfulness practice, that if our meditation is not peaceful and free of thoughts, then we must be doing something wrong. In **Befriending Our Bodies**, Jon Kabat-Zinn talks about the importance of our relationship with our body in this course. The last video guides you through a **Raisin Meditation** using two ordinary raisins. **To get the most benefit out of this video, have two raisins and a glass of water with you so you can experience on your own what is described in the video.**

Readings

Each week, there are readings which are an important part of the program. This week, the main reading is about the **Body Scan Meditation** you will be doing for your 30 minutes of daily practice this week. **7 Myths of Meditation**, and **Why We Find It So Hard to Meditate** address common misunderstandings, including the idea that one must have a quiet mind to meditate successfully. **What Would It Take for You to Be Still?** describes one person's personal experience with mindfulness and will give you a little bit more of an idea of what to expect from this course.

Daily Practices

This week begins your 30-minute daily **Formal Practice**, which is the **Body Scan Meditation**. The audio guidance is available through the menu just to the left of this text under "Guided Practices". Below, you can see the link to the **Formal Practice sheet**, where you will be making brief notes about your practice. *[NOTE: If you will be completing this by hand, print the PDF file, but if you'd like to complete it on your computer, download the WORD file.]*

For the **Informal Practice** this week, it is suggested that you bring mindful awareness to some otherwise routine activity such as washing the dishes and/or eating a meal. At the end of each day, using the **Informal Practice sheet** you will be printing or downloading for this week (see below), take just five minutes or so to see if you can recall a daily activity which you brought awareness to that day.

Supplementary reading

In addition, each week will indicate some supplementary reading or viewing materials. Listed there are suggestions for background reading or viewing if you'd like to know more about a given week's topic. Of special interest this week are two great resources having to do with eating mindfully: **Mouthfuls of Mindfulness**, written by Jan Chozen Bays and a video, **Introduction to Mindful Eating**, by Michelle DuVal. The video, **Managing Anxiety with Mindfulness** by Rachel Green, was originally made to address test anxiety.
